# i>Clickers

- You will be issued a clicker to use this semester.
- 2.5% of your in-class grade will come from clicker participation.
- Your earned clicker points will not be applied towards your course grade until the clicker has been returned.
- If you lose it, buy another one (\$20 used)

# Iclicker.com -> Register your remote

The screenshot shows the Iclicker.com registration page. The browser address bar displays <https://www1.iclicker.com/register-clicker/>. The page title is "Register Your Clicker". Below the title, there is a sub-header "Register Your Clicker" and a brief instruction: "Register your i>clicker remote so your instructor will be able to assign you credit for using your clicker in class." A note states "All fields are required." The registration form includes the following fields:

- Country: United States (dropdown menu)
- First Name: [text input]
- Last Name: [text input]
- Student ID: [text input]
- Remote ID: [text input]

Below the Remote ID field, there is a note: "The 8-character code found on your remote (see image). Codes only use letters A-F and numbers 0-9." An image of a clicker remote is shown with a red circle around the barcode and the code "123ABC78". A red arrow points from the text "Student ID = PDID" to the Student ID field.

The form also includes a CAPTCHA image with the code "e x 2 k c" and an "Image Code" field. At the bottom, there is a checkbox for "I acknowledge that I have read and agree to the [Privacy Policy](#) and the [Terms of Use](#)". Below the checkbox are two buttons: "Register" and "Reset Form".

At the bottom of the page, there is a link: "Need help? Visit our [student support portal](#) if you have questions or need assistance."

# Class gender

Are you Male or Female?

A. Male

B. Female

C. Other

# Font

Is this a comfortable font size to read?

- A. Yes
- B. Fine
